INTERACTIVE MULTI-TARGET TRAINING SYSTEM

REACTIVE TARGETS ARENA – FOR HOME DEFENSE AND JUDGMENTAL TRAINING

The Interactive Multi-Target Training System (i-MTTS) enables wireless communication between targets, allowing the shooter to use a wide array of training modes including: standalone shooting, steel plate shooting, tactical training/chase the ball, shoot/no shoot, double speed shoot/no shoot, and double tap.

The i-MTTS do not require the use of a computer or app, and simply runs on AAA batteries (included). Each base unit also comes with 4 assorted targets, varying in both shape and size. These targets are designed to be used exclusively with any Laser Ammo Lasers (red or IR).

The System Controller (offered as a stand-alone or within a combo) allows the shooter to switch between the different training programs, adjust the split time, total time, # of hits required on target, restart, delay time for the "start signal", set training program length, set target sound, and light options, extend target range, define subgroups and so much more...

EACH TARGET INCLUDES:

- Interactive target sensor
- AAA Batteries
- 4 target cards (3"-5") for each sensor.
- Six operational modes
- Buzzer (audio) and light feedback.

AVAILABLE PACKAGES:

SKU: i-MTTS-C	System controller
SKU: i-MTTS-1	1 Pack i-MTTS
SKU: i-MTTS-3	3 Pack i-MTTS
SKU: i-MTTS-5	5 Pack i-MTTS

RECOIL ENABLED TRAINING

SCAN ME

TAKE THE DRY OUT OF THE DRYFIRE AND TRAIN WITH REALISM AND CONFIDENCE

Take your training to a whole new level with recoil enabled training - the most realistic way to maintain and perfect your shooting skills indoors, without a live range.

Commonly used by the military and Law Enforcement it has become more popular among shooters due to its low cost, full blowback, and automatic reset of the firearm. The realistic look and feel of the firearm reinforce muscle memory and enhances safety skills of the shooter.

Our Recoil Enabled Firearms are completely safe, and the training costs a fraction of what a day at the range with live ammo training would cost.

Pair one of the Recoil Enabled firearms with the Laser Ammo I-MTTS reactive targets or Smokeless Range® and take your shooting skills to a whole new level.

NEW FOR 2024

A SMART RESET MAGAZINE THAT CONVERTS YOUR STRIKER FIRE PISTOL TO DRY FIRE WITHOUT THE NEED TO RACK THE SLIDE

NEW FOR 2024

The **SureStrikeMAG™** is a combined development of the original **SureStrike™** laser cartridge and the **Smart Dry fire Magazine** (by DryFireMag®, LLC), which creates a powerful tool to help any level of shooter, improve their handling skills with a striker activated pistol like Glocks or Sig P320.

The shooter can use their own carry pistol with no need to rack the slide after each shot, and practice target acquisition, stance, accuracy and more with 100% safety at the convenience of the shooter's own home.

Each trigger press of the SureStrikeMAG™, activates the SureStrike™ laser cartridge to emit an eye-safe laser pulse, a "shot" of red (or Infrared) light, which simulates the point of impact where a bullet fired from the firearm would have struck.

The SureStrikeMAG™ Advantages:

- No need to rack the slide for continuous shots.
- Powered by a rechargeable battery that will last for thousands of shots.
- Magazine battery is recharged by a USB-C cable.
- Simulate a factory Glock 5.5 – 6lb trigger weight (Optional spring kit for lighter or heavier trigger weight is available).
- Many caliber adapters available (9mm, 40SW, 357 sig)
- Can be used with any Laser Ammo reactivate targets and Simulators.
- Class 1 Eye Safe laser
- Perfect for Tactical training, marksmanship and speed drills
- Practice Double Taps
- Builds Proper Muscle Memory
- Does Not Use Pistol's Firing Pin
- Pays for Itself in Ammo Savings
- Practice Safely in Your Own Home

For most full-size Glocks: **LAM-G9MLK-RED / LAM-G9MLK-IR**

For Glock 43X /48: **LAM-G43XLK-RED / LAM-G43XLK-IR**

For Sig P320: **LAM-P320LK-RED / LAM-P320LK-IR**

FLASHBOLT

UNLIMITED TRAINING POSSIBILITIES FOR 9MM, 223/5.56, 308, 7.62 CALIBER AR PLATFORM RIFLES, WITH DIFFERENT LASER MODES FROM BORESIGHT TO DRY FIRE.

The Laser Ammo Flash Bolt is a drop in bolt for your personal AR that allows you to safely shoot a Red or Infrared laser for dry-fire training. This fully adjustable laser allows you to increase proficiency with your draw, sight acquisition, trigger control, transitions, as well as accuracy.

The Flash Bolt is meant to build “muscle memory” and will permit the appropriate techniques to be ingrained into your subconscious. This will allow for your actions to be duplicated automatically when you return to the range or if you are ever thrust into a shooting incident.

Move between the different laser modes for aligning your sights, dry fire with up to 6 shots a second for your PCC competition rifle, longer pulse for long distance shooting and more.

- Easy to use Windage and Elevation alignment for the most accurate training at any distance.
- Fits in most AR's chambered in .223, 5.56, .308, 7.62x39 and 9mm.
- Easy and quick to install with no need to replace your trigger, sights, or optics.
- Includes different modes for optimal training: dry fire, shot tracking, boresight, and more.
- Works with all Laser Ammo targets and Smokeless Range® simulator
- Up to 6 shots a second – ideal for competition shooters
- Class 1 eye safe lasers
- Available in both Red and Infrared lasers
- Long lasting battery life (approximately 50,000 shots)

THE ORIGINAL SURESTRIKE™ LASER CARTRIDGES

TRAIN WITH YOUR OWN FIREARM ANYTIME ANYWHERE

The SureStrike™ Laser Training cartridges and Kits allow any level shooter to practice safe marksmanship and gun handling drills with their very own firearms.

This system enables a shooter or instructor to enhance their abilities by focusing on their firearm presentation, sight alignment, sight picture, breath control, trigger squeeze and follow through.

The patented Caliber Adapter System allows the 9mm SureStrike™ Laser Cartridge to be used in multiple calibers, eliminating the need to buy a separate cartridge for each caliber (excluding the 380 and Makarov). The patented UhrSecure™ safety system is used for visual indication that the gun is safe and aligns the laser with the barrel, making it the safest and most accurate laser in existence.

The SureStrike™ Lasers are the most accurate and robust laser training aides available on the market. Built with a stainless-steel body, high quality glass lens, and action cap that controls the function of the laser, and acts as a snap cap protecting your firing pin, and carries a 5,000 shot warranty (or one year) guaranteed!

All of the above makes the SureStrike™ Laser Cartridges the most versatile and safest training tool on the market.

Surestrike™ Kits Include:

- Protective carrying case
- Class 1 eye safe Red (visible) or infrared (invisible) laser cartridge
- Patented UhrSecure™ safety system (pipe, extension, and high visibility safety nut)
- Caliber adapters (Premium Plus and Ultimate kit)
- Battery pack
- Six reflective targets (with red laser only).

INTERCHANGABLE ACTION CAPS

**CHANGE THE FUNCTIONALITY OF YOUR
LASER TO YOUR OWN NEEDS**

A unique ability of the SureStrike™ training system is to be able to change the functionality and behavior of the laser cartridge according to your training needs.

By using interchangeable Action Caps, the user can enhance his training by choosing between dry fire, bore-sight, long or short laser pulse. Choose between different gun platforms: Using his own gun with firing pin activated caps, or recoil enabled training pistol with vibration activated caps or using a light activated cap with the SureStrikeMAG™. By changing the Action Caps the user can also change different calibers from 9mm to 38SP or 223.

The SureStrike™ Action Cap also performs as a snap cap, keeping the firing mechanism safe from damage while dry firing.

We guarantee all of our Action Caps for at least 5,000 shots, although many shooters have reported thousands of extra shots from their SureStrike™ units. By simply replacing the Action Caps, the shooter can continue to use the SureStrike™ as many times as needed.

Those features make the SureStrike™ the most versatile dry fire training system available today.

MILITARY

LASER AMMO IS THE NATION'S PREMIER, EXPEDITIONARY AND GLOBALLY INTEGRATED VIRTUAL AND HANDS-ON TRAINER READY TO MEET THE EVER-CHANGING CHALLENGES OF TODAY AND TOMORROW

Laser Ammo provides a better Commander assessment through a simulations-based interactive repeatable demonstration of the Soldiers' performance that augments live environment training in a virtual environment allowing for advanced tactical engagement scenarios, grouping practice, CBRN, night fire, and gate to live fire exercise which assesses overall proficiency of Soldiers and effectiveness of their past UTPs.

INDIVIDUAL MILITARY MOBILE TRAINING TARGETS

Laser Ammo reactive targets allow soldiers to conduct hands-on training that assist to evaluate the soldier's ability to execute critical tasks using weapon and equipment, during day and night conditions, and when operating in a CBRN environment.

The targets allow organizations to have a completely mobile training system in a matter of seconds. Organizations primarily utilize this training aid to reinforce weapon manipulation and proficiency of drills. The system also allows users to build dynamic courses of fire inside of their training facilities. Due to the design, trainers can utilize these training aids for mobility drills working on strength and conditioning, elevated heart rate shoots, and cognitive processing skills for target identification.

PRELIMINARY LIVE-FIRE SIMULATIONS

The Lane Trainer Pro, designed to raise proficiency in weapon manipulation and the fundamentals of Marksmanship to include the shot process. Organizations can create their own proficiency exams and branch individual weapon qualification.

BENEFITS OF THE LANE TRAINER PRO SIMULATOR

- Allows instructors to run Soldiers through tables 1,2, & 3, streamlining the qualification process from a 4 Day model to a 3 Day model.
- Allows instructors to hone-in and build basic marksmanship skill sets in different areas. (Examples: tracking, transitioning, target identification, and speed in manipulation drills);
- The expansion to the Marksmanship Facility of the 7th Transportation Brigade (Expeditionary) allows for entire platoon size elements to run through the qualification at one time;
- Provides the ability to run dynamic courses of fire working on movement drills as well as training for conducting urban rifle marksmanship by having a shoot house on rails;
- The software comes with extensive support training programs, raising the interest of Service Members in marksmanship to raise proficiencies with employing their individual weapon systems. These programs are not limited to, but contain practical shooting association matches, shoot houses on rails, shoot and no shoot scenarios, ability to create your own targets and backdrops providing a more realistic feel of engagement sequences;
- The system provides the capability to utilize full size barricades for a more realistic simulation environment to mimic live fire training
- Easy-to-use layout and menu screen for users.
- Easy to create, design and edit by user level, any training courses mimicking live fire course of fire.
- Split the screen for up to 5 lanes at the same time.
- Ballistics and targets are scaled correctly for distance.
- Ability to play media files such as videos or slides prior to running a course to visualize learning objectives and concepts.
- After-action review screen allows debriefing trainees after each stage in a course of fire.
- Available networking for one control station for up to 7 different screens (up to 35 soldiers in one drill).
- Easy to operate with no need for special operator and customizable courses of fire.
- Score cards can simulate and replicate real qualification cards or can be created to record split times, draw times, transition times, and hit factor scoring to create an aggregate score for balancing, speed, and accuracy.
