PROFESSIONAL TRAINING TECHNOLOGIES

Dear Shooter,

On behalf of everyone at Laser Ammo Europe, we'd like to extend our thoughts and well wishes during this unprecedented crisis.

We would like to thank you for being a responsible firearms owner and joining our Laser Ammo family.

We would love to hear from you, about your experience with our products and customer service, and about your training needs.

Please feel free to contact us any time at +46(0)18-4951115 or info@laser-ammo.se with any questions you might have.

Stay safe, stay healthy, and keep on training!

The Laser Ammo Team.

FOR SHOOTERS BY SHOOTERS

First and foremost, we are shooters.

Laser Ammo is owned and operated by Israeli and US law enforcement and military veterans who are dedicated to providing innovative training solutions at an affordable price for shooters of every level.

Our product philosophy is simple: provide affordable, high quality products, that will allow any level of shooter to train anytime anywhere! Among our customers are military units, law enforcement agencies, NRA instructors, security personnel, and thousands of private firearms owners around the world.

Laser Ammo is the worldwide leader in laser-based firearms training. With R&D in Israel, and sales offices both in the USA and Europe, we are able to offer our training solutions worldwide.

Our technical team works tirelessly to bring our customers the most advanced training technology and highest quality available with one singular goal: creating better shooters.

Through our expansive product line, including the SureStrike™ class 1 “eye safe” laser training cartridges, electronic targets, and Smokeless Range® shooting simulators, our customers are able to create a custom training regimen that fits their specific goals and needs, fitting any budget while bringing the range right into their very own home/classroom.

That’s who we’re working for, this is what we do:

- We will always feature the newest and most advanced technology.
- We will always provide the best value while maintaining the highest quality.
- We are here to listen, guide, and assist you in every way we can.
- We look to inspire and be inspired by our customers.
- We will stand behind our products with a money-back guarantee.

ABOUT DRY FIRE TRAINING

REPETITION IS THE KEY TO MUSCLE MEMORY

For a shooter, repetition can represent a considerable amount of ammunition to perfect a trigger squeeze. With the high cost of ammo, dry-firing represents an affordable training alternative.

Shooting is a deteriorating skill. In as little as one week after leaving the range, the average shooter's skills can diminish by 20%.

Dry Firing allows you to continually practice, maintain and improve your shooting skills while away from the range.

Get the Laser Ammo Advantage with SureStrike™. Practicing your stance, presentation, sight alignment, sight picture, breath control, trigger squeeze & follow through has never been easier.

Those of you who are not able to make it to the range as often as you would like, can still practice the fundamentals of shooting, through dry-firing in the convenience of your home or office. Dry-firing is the single most efficient and safest way to increase your skills regardless of your experience level. It allows you to increase proficiency with your draw, speed up your sight acquisition, gain better trigger control, increase speed and accuracy of your reloads, smooths and speeds up your transitions, assists in breath control and heart rate, and allows you to incorporate basic movements. Starting out slow ensures that your fundamentals are flawless through repetition, before increasing speed or distance to your targets.

By continuously repeating these drills without errors, you will build "muscle memory" and will allow the techniques to ingrain in to your subconscious. This will allow for your actions to be duplicated automatically when you return to the range or if you are ever thrust in to a shooting incident.

The SureStrike™ is a high-end laser training system for pistols, rifles and recoil enabled firearms that assists all levels of shooters in building and maintaining the correct firearms skills, by emitting a laser pulse simulating a bullet's impact point. The SureStrike™ turns the typical dry firing session into a powerful and rewarding learning experience where the shooter can easily recognize and correct any errors ingrained in muscle memory.

The SureStrike™ helps shooters obtain a stable grip, control trigger squeeze, reduce response time and aid in obtaining perfect sight alignment and sight picture.

I-MTTS ARENA

INTERACTIVE MULTI-TARGET TRAINING SYSTEM

The Interactive Multi-Target Training System ["i-MTTS"] enables wireless communication allowing each of the i-MTTS targets to "communicate" with each other to engage the shooter in a wide array of training modes, including standalone shooting, steel plate shooting, tactical training/chase the ball, shoot/no shoot, double speed shoot/no shoot, and double tap.

The i-MTTS targets do not require the use of a computer or app, and run simply off of AAA batteries, which are included. Each base unit also comes with 4 assorted targets, varying in both shape and size. These targets are designed to be used with the SureStrike™ Laser Cartridges (in either red or IR) in the shooter's own double action pistol, or one of Laser Ammo's Advanced Laser Training Pistols/Recoil Enabled Training Guns.

The i-MTTS System Controller, offered as a standalone unit or in a combo package. This controller serves as a wireless control unit which allows the user to control from a distance their target systems. A simple button will rotate between the different training programs, view, scroll and toggle between 'split time' and 'total time' performance results, set automatic or manual 'restart, choose 'random' or define the delay time for the 'start signal, define needed 'hits' on target, set training program length, set preferred sound and light response, extend targets range, define sub groups, and more...

TAKE DRYFIRE TO THE NEXT LEVEL

WITH RECOIL ENABLED TRAINING

Safe and Realistic Firearms Training – Anytime, Anywhere.

Take your training to a whole new level. Many shooters find recoil enabled training to be the most realistic way to maintain and perfect their shooting skills indoors, without a live range.

Force on force airsoft training is commonly used by the military and Law Enforcement and has become more popular among shooters due to its low cost, full blow back, and automatic reset of the firearm. The realistic look and feel of the firearm enforces muscle memory and enhances safety skills of the shooter.

Using a recoil enabled pistol or rifle adds realism to training and is the best way to train for real life situations, with simulated sound and recoil.

Our Recoil Enabled Firearms are completely safe, and the training cost a fraction of a day at the range with live ammo training.

Pair one of the Recoil Enabled firearms with the Laser Ammo I-MTTS reactive targets or Smokeless Range® and take your shooting skills to a whole new level.

“REFILL” YOUR CARTRIDGE & CHOOSE DRYFIRE OR BORESIGHT WITH INTERCHANGABLE CAPS

A unique ability of the SureStrike™ training system is to be able to change the functionality and behavior of the laser cartridge according to your training needs. By using interchangeable Action Caps, each having a different program, the user can decide if they want to dry fire, a Boresight™ or both.

This feature makes SureStrike™ the most versatile dry fire training system available today. The SureStrike™ Action Caps have a microprocessor controlled primer which activates the SureStrike™ and also performs as a snap cap, keeping the firing mechanism safe from damage while dry firing.

The SureStrike™ Vibration cap is not activated by firing pin and therefore it doesn't have the primer. Instead, it is specifically programmed and built for airsoft use with one of our airsoft adapters.

We guarantee all of our Action Caps for at least 5,000 shots, though, many shooters have reported thousands of extra shots from their SureStrike™ units. By simply replacing the Action Caps, the shooter can refill the SureStrike™ as many times as needed.
